

Outlook 2010&2013

Q. How do I setup my account in Microsoft Outlook 2010?

A. Step 1. Create a new profile

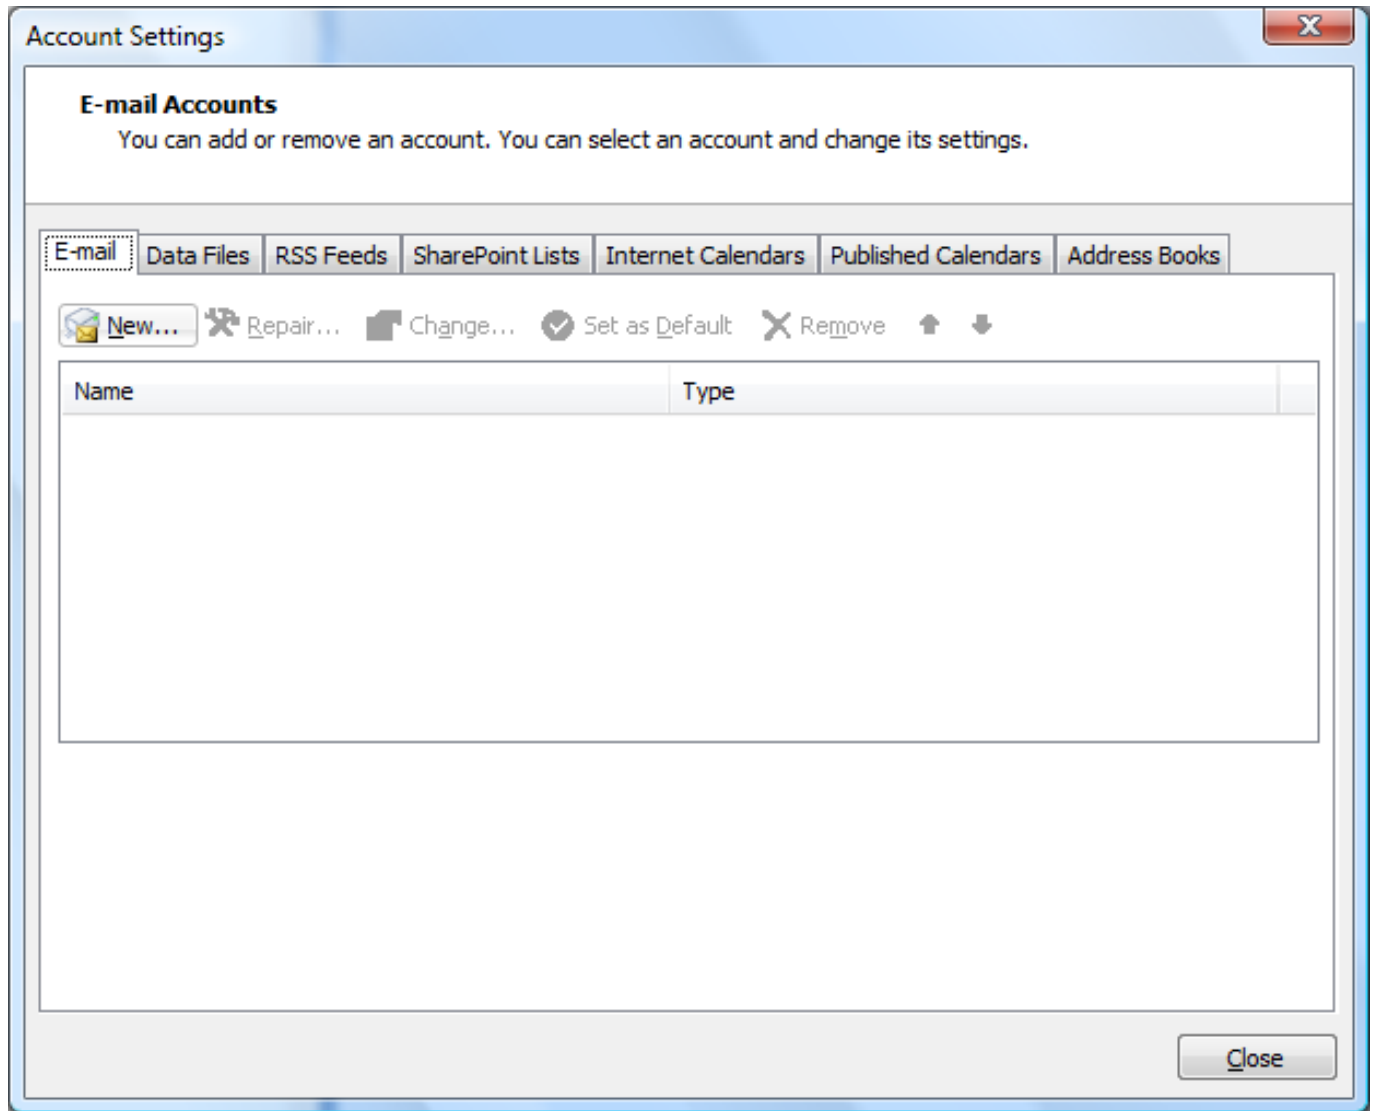

1. Open Microsoft Outlook 2010. Select "Account settings..." from under "File"

(If you already have an account setup, continue on to ["Step 2. Configuring/Modifying SMTP \(outgoing mail\) server."](#))

2. Click on "New..." to add your email account

Outlook 2010&2013

3. Check the "Manually configure server settings or additional server types" box here and then click "Next"

Outlook 2010&2013

Add New E-mail Account

Auto Account Setup

Your Name:
Example: Barbara Sankovic

E-mail Address:
Example: barbara@contoso.com

Password:

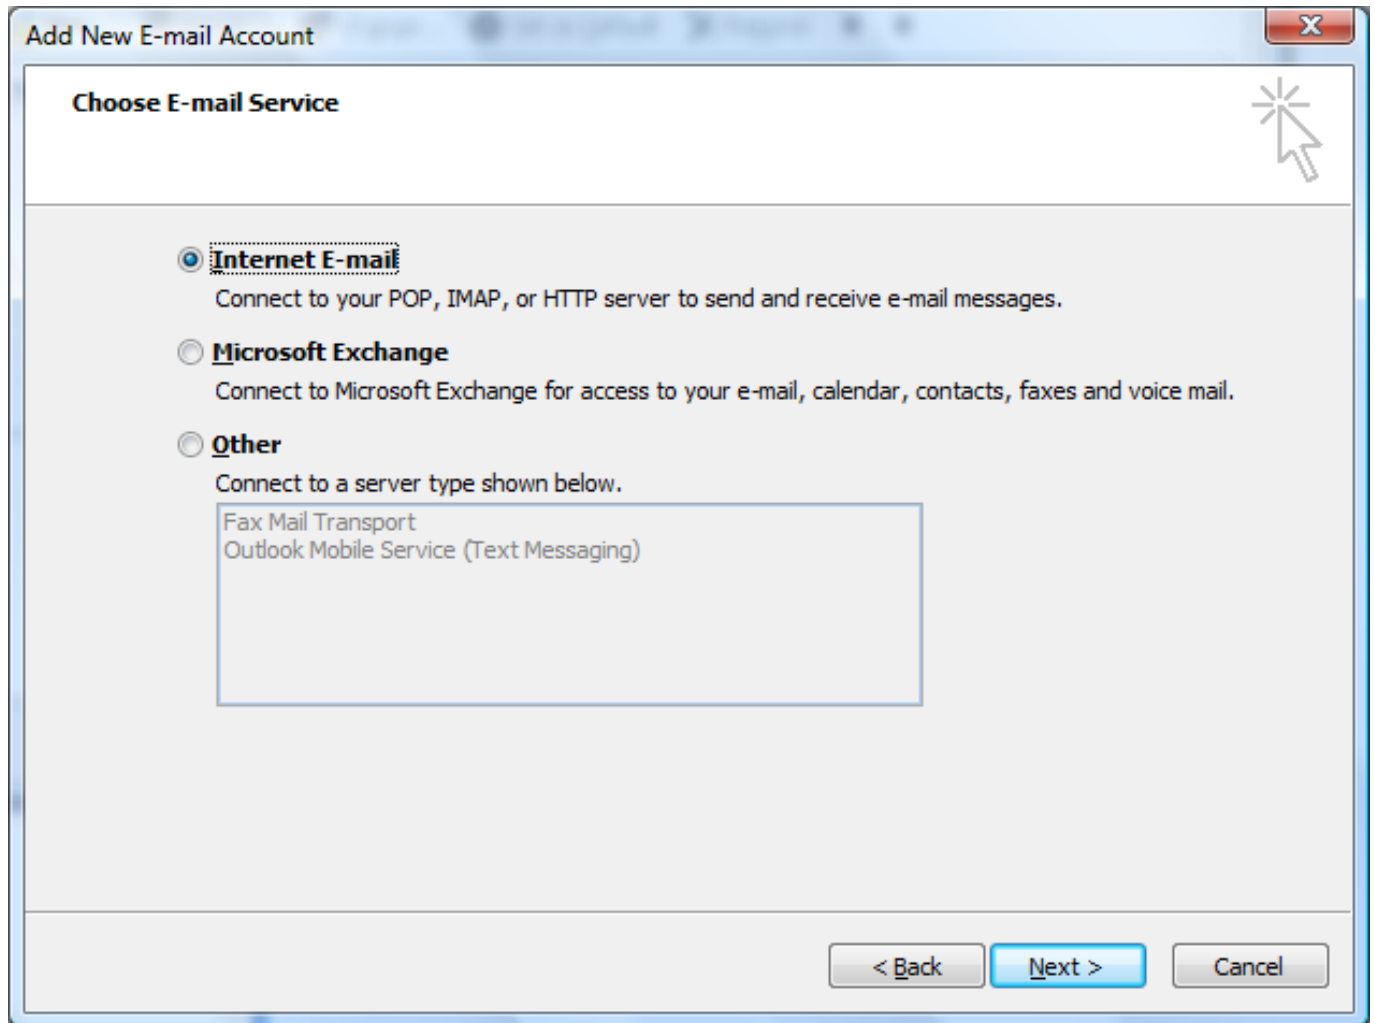

Retype Password:
Type the password your Internet service provider has given you.

☒ Manually configure server settings or additional server types

< Back Next > Cancel

4. Select the "Internet E-mail" option and then click "Next"

Outlook 2010&2013

5. Enter your "Internet E-mail Settings" as shown below;

Outlook 2010&2013

Add New E-mail Account

Internet E-mail Settings
Each of these settings are required to get your e-mail account working.

User Information

Your Name:

E-mail Address:

Server Information

Account Type:

Incoming mail server:

Outgoing mail server (SMTP):

Logon Information

User Name:

Password:

☒ Remember password

☐ Require logon using Secure Password Authentication (SPA)

Test Account Settings

After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)

Test Account Settings ...

More Settings ...
