Q. How do I setup my account in Apple Mail 9? A. Step 1. Create a new profile

1. Open the Apple Mail software and then click on "Mail" and "Preferences..." in the top left corner of the screen.

Mail	File	Edit	View	Mai
About Mail				
				10
Preferences				ж,
Provide Mail Feedback				
Services				
Hide Mail				≆Η
Hide Others			73	ЖH
Show	N All			
Quit Mail				₩Q

2.Select the "Accounts" icon at the top of the screen and then click on the "+" button in the bottom left corner to add a new account. Please choose "Other Mail Account..." from the list.

(If you already have an account setup, continue on to <u>Step 2. Configuring/Modifying</u> <u>SMTP (outgoing mail) server."</u>)

Full Name: Your Name Email Address: user-id@gol.com Password: Your Rakuten Broadband Premium account password

Click on the "Sign In" button to go to the next screen.

4. You will see the following image saying "Unable to verify account name or password". This is OK. Enter the information as show below where "user-id" is your GOL ID/Email address, the click "Sign In".

5. On this screen, click on the "Outgoing Mail Server (SMTP)" drop down menu and choose "Edit SMTP Server List", then proceed to step 6.

6. Choose the "Account Information" button on the left side and enter the information as shown below. After entering the information select the "Advanced"tab on the right side. Do not click "OK".

7. Enter the information as shown below.

Automatically detect and maintain account settings: Checked Port: 587 Use Secure Sockets Layer (SSL): Unchecked Authentication: Password Allow insecre authentication: Unchecked User Name: Your email address Password: Your Rakuten Broadband Premium account password

Click on the "OK" button to save these changes and return to the "Accounts" screen

8. You will now see your account as shown below. Click the circle on the top left to close this window. You may be asked to "Save". If so, click "Yes". Now go to the Mail application to verify that your account is working.

Step 2. Configuring/Modifying SMTP (outgoing mail) server

1. After completing the setup of your account, you should be returned to the "Accounts" screen. If not, click on "Mail" and then "Preferences..." in the top left corner of the screen to return to this window. You can now see your account and all of your details listed here.

2. Click on the "Advanced" tab in this window to check the incoming mail settings for your account.
