

Hikari Premium (NTT West)

Q. How do I setup my Hikari Premium account? (NTT West only)

A. If you are in one of the NTT West* areas and using a Hikari Premium Mansion** or Hikari Premium Family type service, the connection setup instructions are slightly different to those provided for other operating systems. The reason for this is that NTT provide 2 devices to you when you use a Hikari Premium service, an ONU (Optical Network Unit, converts the fiber signal to data) and a CTU (an IPv6 bridge).

In order to connect to the internet in NTT West areas when using a Hikari Premium type service, please refer to the instructions at the link below.

http://www.gol.com/english/support/manual/internet/pdf/ntt_west_setup.pdf

*NTT West Areas: Toyama, Ishikawa, Fukui, Gifu, Shizuoka, Aichi, Mie, Shiga, Kyoto, Osaka, Hyogo, Nara, Wakayama, Tottori, Shimane, Okayama, Hiroshima, Yamaguchi, Tokushima, Kagawa, Ehime, Kochi, Fukuoka, Saga, Nagasaki, Kumamoto, Oita, Miyazaki, Kagoshima, Okinawa

** If you are not using a Hikari Premium type connection and are only using a BFLETS type fiber service from NTT, you can refer to the regular connection setup instructions for your operating system.
